To Whom It May Concern:

Please accept this letter as our personal letter of recommendation for Michael McCarty, president of Southern Home Builders. We watched Michael build the house across the canal from us. When the house was completed we went to the open house and we're amazed at the impeccable attention to detail. Shortly after, Hurricane Wilma did substantial damage to our home. We met with Mike and were immediately impressed with his knowledge, confidence and professionalism. With a handshake we hired him to be the general contractor. This is the fifth house that we have been involved with. We experienced absolutely no problems that Mike didn't take care of immediately. I live part time in Ohio and was absent during most of the construction. It is difficult enough to build a house when you can be there all of the time. Michael took care of us and made the ordeal effortless. He was prompt in returning phone calls and e mails and always kept us updated. His subcontractors did a perfect job with Mikes constant supervision. This was his house and he was here every day to make sure everything was done perfectly. He never failed to lead us in the right direction. Mike has a very strong work ethic and has proved himself to be a conscientious, dedicated, and highly skilled home builder. I could continue on with more accolades but will simply say that we respect him greatly and would certainly not hesitate to recommend him. Thanks to Mike we have a magnificent home that is beyond our wildest expectations. Please do not hesitate to contact us about this recommendation and you are also most welcome to inspect his workmanship at my home.

Most sincerely,

Dr. John Sedor
